

Vanagon Westfalia Ignition Switch Replacement

A video tutorial on how to change the 1983-1991 Vanagon T3 ignition switch.

Written By: eCuration

INTRODUCTION

If you are experiencing no crank on key turn, it is likely either a dead battery or worn out ignition switch. If the battery is charged, please disconnect, and try replacing the ignition switch with a new one.

This video will show you how to remove the steering wheel in order to gain access to the ignition switch housing.
